

AI Translator: Terms and Conditions of Diennea S.r.l.

As the legal representative of the company ('**Client**') that will use the DeepL service, without prejudice to the provisions of the Contract with Diennea S.r.l. regarding the use of the **magnews** platform, I declare: (i) to have examined and accepted the contractual documentation made available by DeepL SE, with the commitment to guarantee compliance with the relative provisions; (ii) that the Client and its users, authorised to use the services offered, will act in accordance with applicable laws; (iii) that the Client will indemnify and hold harmless Diennea S.r.l. from any and all claims, including compensatory claims, of the data subjects and third parties, with the Client remaining solely responsible for activities and treatments, including, where applicable, those concerning personal data, carried out through said service.

The Client acknowledges and accepts that the use of the DeepL service:

- is activated on all accounts created under the Client's magnews account;
- is offered free of charge during the beta phase of the service, with a monthly usage limit of 50,000 characters, calculated on the magnews account and not on individual users, and usable until the end of the current month in which the DeepL service was activated or renewed. Once this limit has been exceeded, the DeepL service will no longer be accessible until the end of the current month in which the DeepL service was activated or renewed; if the Client wishes to extend its usage limit during the beta period, it will be necessary to contact its commercial contact at Diennea S.r.l.
- is linked to the magnews Platform usage license agreement, insofar as the Client can at any time cease the use of this specific functionality while continuing to use the magnews platform as per the respective Contract between the Parties. Otherwise, the termination of the magnews Platform usage license agreement shall result in the revocation of the right to use this service unless otherwise agreed upon by the parties;
- is not instrumental to the processing of personal data of third parties; therefore, the Client undertakes to use the service while excluding this possibility. Otherwise, it is understood that all legal obligations and responsibilities (including those related to the privacy relationship with the service provider) fall upon the Client, who will indemnify and hold harmless Diennea S.r.l. from any compensatory claims arising from data subjects and

third parties whose personal data have been processed in violation of these
Diennea Terms and Conditions and/or applicable data protection laws.
